

## CODER

PROFIN291000002 SHOCK SENSOR

PROFIN291000001 CURRENT SENSOR

## CODER

### FEATURES

- Test and coding for 20 digits Delphi injectors C3I
- Response time measurement and coding \*
- Injectors parameters constantly updated
- Power supply from Rabotti test bench
- Fully compatible with PROTEC 2 and RAILMASTER software
- Easy installation and use
- Separate PROTEC annual license
- Fully compatible with all Rabotti common rail test bench
- The only alternative solutions for C3I coding available on market

### TEST - CODING

- Exhaustive injector test on over the 15 points
- Injector test carried on different pressures and timing according to injector specifications
- Fast and reliable code generation

\* With optional accessory

### TECHNICAL FEATURES

Power supply	From USB connection
Interface	USB 2.0
Operating temperature range	0÷70 ° C

### DIMENSIONS

155 mm x 96 mm x 20.2 mm
